

Buckingham
Leasing

 **Golf Industry**

Who we are

Established by Ian Bridges over 20 years ago, Buckingham Leasing is a trusted provider of asset finance, with a wealth of experience in the **Golf Industry**. Our range of specialist finance products can help you fund the equipment your business needs!

Ian Bridges
Managing Director

Why Buckingham Leasing?

What sets Buckingham Leasing apart from the rest is we not only offer straight forward Hire Purchase and Finance Lease packages, we can also make financing anything from a new **Golf Buggy** to a new **Irrigation System** just as simple! Whether you want us to pay your supplier up front or in stages we will make the process seamless by providing a market leading customer service.

In conjunction with this, we offer products which optimize **cashflow**, provide **seasonal repayment** profiles and may require no deposit.

Testimonial

"The London Golf Club PLC has had a strong partnership with Buckingham Leasing for over 10 years. Their industry knowledge and expertise has proven invaluable not only in securing finance options but making asset decisions in general. As head of finance at LGC I can rely on Buckingham Leasing to deliver exactly what we need and with the highest of quality. I look forward to working with them for many years to come."

P. Greene - Head of Finance

The Process

The process can take as little as a day to complete from start to finish providing all requirements are met; so if you are looking to acquire a machine or start a project at the earliest, look no further! The typical stages of the process are:

1. **Let us know the machine / project you are looking to finance, the supplier and information regarding the company profile**
2. **We assemble a finance package which is bespoke to your particular requirements - once you are happy with the terms we can send the deal to be underwritten**
3. **Once approved we can send you the paperwork by either email, post or call in at your convenience to get it all signed up!**
4. **Once we have receipt of all completed paperwork we can transfer the payment to your supplier directly or to your business account**

You can take delivery of the machine!

Packages

- Hire Purchase, Finance Lease, Operating Lease or Business Loan
- Borrow up to 100% of the project cost
- Monthly / Quarterly / Half Yearly / Annual / Seasonal or bespoke monthly repayment schedules over 1-8 years
- Include VAT in monthly payments or defer until the end of the quarter
- Balance paid directly to you or your supplier

➤ Why would you lease and not pay upfront?

Tax Benefits

The lessee gains tax advantages from being able to charge their periodic lease expense to the profit and loss. This will subsequently decrease the company's taxable income!

Saves you Money

Leasing your equipment allows you to both maintain a healthy cashflow and invest in other areas of the business. Investing the money you would have used to purchase the equipment could allow your company to generate extra income. Additionally, if you take into account inflation, depreciation, tax benefits and return on investment, you will find leasing could save you a lot of money in the long term!

The Budget!

Leasing ensures you can maintain full financial control giving you the ability to forecast your business expenditure. Paying out in full for an asset could push you over your budget threshold, leasing allows you to take delivery of a machine straight away as you will not be laying out a large sum of money on delivery. This in turn will ensure you can control your cash flow and monitor both your depreciation and business expenses!
